

```
SitumSdk.communicationManager().fetchFloorsFromBuilding(edificioSitum, new Handler<Collection<Floor>>() {  
    @Override  
    public void onSuccess(Collection<Floor> listaPiso) {  
        if (hasCallback()) {  
            callback.onSuccess(listaPiso);  
        }  
        clearCallback();  
    }  
  
    @Override  
    public void onFailure(Error error) {  
        Log.e(TAG, error.getMessage());  
        if (hasCallback()) {  
            callback.onError(error);  
        }  
        clearCallback();  
    }  
});
```
